

Climate Neighbourhoods – Announcement and Invitation

Climate Neighbourhoods 2019 – Apply now

22 - 23 May 2019 in Heidelberg, Germany

The Climate Neighbourhoods CN2019 are a unique international meeting and exchange space that bring together local governments, civil society, companies and youths from different regions of the world in the historic city centre of Heidelberg. We will explore how cooperation can lead to the intensification and dissemination of climate action and formulate suggestions on how to scale-up tried and tested solutions. Do not miss the Climate Neighbourhoods' interactive programme with workshops, open-space discussions, exhibitions and the Climate Fest. Bring your good ideas on board and apply until 15 March! In the application form you can indicate if you want to contribute to a workshop, to the exhibition area or have a coaching offer. The CN take place as part of the International Conference on Climate Action ICCA2019 of the German Federal Environment Ministry and are organised by Climate Alliance and ifeu.

Climate Neighbourhoods – Let's scale-up solutions!

22 - 23 May 2019 in Heidelberg, Germany

Exchange your ideas on climate action with peers from around the world, find new inspiration, voice your recommendations to policy makers: apply for the international conference Climate Neighbourhoods CN2019 until 15th March!

The Climate Neighbourhoods are a unique meeting and exchange space that bring together local governments, civil society, companies and youths from different regions of the world in the historic city centre of Heidelberg. We will explore how cooperation can lead to the intensification and dissemination of climate action. Drawing on this, participants will formulate suggestions on how to scale-up tried and tested solutions. Bring your good ideas on board and together we will think more comprehensively about climate action and how to approach the demands of the Paris Agreement.

Following the successful launch in 2015, the Climate Neighbourhoods take place for the second time in the immediate vicinity of the International Conference on Climate Action ICCA2019 of the German Federal Ministry for the Environment, co-hosted by the City of Heidelberg and the State of Baden-Württemberg. As in 2015, participants of ICCA and CN come together for a joint opening and closing ceremony.

Do not miss the Climate Neighbourhoods' [interactive programme](#) at the historic city centre of Heidelberg with workshops, open-space discussions, exhibitions and the Climate Fest and apply now!

- [Pre-application for the Climate Neighbourhoods 2019](#)

Please fill in the pre-application form by **15th of March** the latest. We would like to have a broad international audience and therefore reserve the right to select the final group of participants from the pre-applications. You will receive your final confirmation of participation by 27th of March.

[Bring your good idea on board!](#) In the pre-application form you have the possibility to indicate if you want to contribute to a workshop, to the exhibition area or have a coaching offer. Furthermore, you can share your interests and help us shape the programme according to your needs.
